

UCDAVIS HEALTH SYSTEM

Lions Pediatric Trauma Unit

Lions District 4-C5 is honored to host their annual Charity Golf Tournament benefiting the UC Davis Health System's Lions Pediatric Trauma Unit, under the leadership of Past International President Kay K. Fukushima.

The UC Davis Health System cares for the most seriously injured and ill children, and the most medically complex cases, from all of Northern Inland California – an area that includes over 6-million residents in 38 counties. The appropriate care of these critically ill or injured little patients is profoundly different from that of adults. Children often cannot adequately communicate symptoms... emotional reactions to the ER and medical procedures differ according to age... pharmaceutical dosages must be calculated based upon weight... and hundreds of specialized medical instruments must be available in a wide variety of sizes as well.

The problem? The current design of the ER has critically ill adults and children being treated in the same cramped areas. The UC Davis team of critical care physicians strongly believes a separate Pediatric Emergency Room area will increase the effectiveness of care, while also assuring the least amount of emotional trauma for children and their families.

The Lions believe that, as a community, we must always remember that the strength of tomorrow depends upon the well being of our children today.

SCHEDULE OF EVENTS

8:00-9:45 AM ... REGISTRATION

- Putting Contest
- Driving Range

BOX LUNCH PROVIDED

10:00 AM TEE-OFF

(Shotgun Scramble)

4:00 PM DINNER & AWARDS

- Raffle
- Silent & Live Auctions
